EXTRAORDINARY MAINTENANCE

TECHNICAL CHARACTERISTICS

The product is water based and colourless. Acid product, ready for use, to be used with care and professionalism.

HOW TO APPLY IT

Tools

Spread the product evenly with a rag or brush on the dry and clean surface to be treated. For large surfaces, we recommend the use of a single brush, with soft felt, in order to allow a homogeneous reaction of the ANTISLIP on the surface.

Mode

Spread the product evenly, leave the treatment to act for 1 to 5 minutes* and then rinse thoroughly with clean water. If the desired result is not obtained, repeat the application a second time.

The product could cause a gloss decrease, so when a surface is treated for the first time it is advisable to evaluate its effect on a sample or hidden corner.

It is an irreversible treatment.
